ASSOCIATION OF ORAL & MAXILLOFACIAL SURGEONS OF INDIA
Trauma & Road Safety Awareness Campaign
"Saving Lives, Saving Faces"

To Principal

CSMSS Polytechnic College / Engineering College / Asna

Greetings from the Association of Oral and Maxillofacial Surgeons of India (AOMSI). We started our association 50 years ago and we are over 8000 maxillofacial surgeons all across the country serving the society in facial trauma, oral oncology and reconstruction, craniofacial deformities, facial aesthetics amongst many other aspects concerning head and neck diseases.

According to the statistics, fatalities in road accidents have increased by 16.8 per cent - from 1,33,201 in 2020 to 1,55,622 in 2021 and most deadly accidents happen on highways and main cities. The cost of road accidents is borne not only by the victims and their family, but by the economy as a whole in terms of untimely deaths, injuries, disabilities and loss of potential income.

This year we have chosen "Facial Trauma" as our theme to educate and create awareness amongst the public. We want to create awareness with the motto of "saving lives, saving faces; wear a helmet, wear a seat belt". As the first responders to facial trauma, we, the maxillofacial surgeons, are exposed to and treat most of the facial bone fractures in the country and this has made us realise the importance of managing road accident victim at the accident site, is of utmost importance.

We have set a goal to sensitize, create awareness and educate 6-7 lakh population across all the states of India through our state chapter branches to train young citizens to manage road traffic accident victim at the site of accident till paramedical/ medical help arrives. We believe this initiative will not only reduce the number of deaths due to accident but will drastically reduce the severity of permanent disability due to improper management and handling of the accident victim at the site of trauma.

We hereby request you to kindly permit us to conduct a session on educating and creating awareness amongst all the pupils in your institution/ organisation.

Regards

TO

Report

Department of Pediatric and preventive dentistry organized a program on the occasion of 'World No Tobacco Day' for spreading awareness based on the theme 'Protect Children From Tobacco Industry Interference' on 1st June 2024 at Bhagwan Baba Balika Ashram, Chhatrapati Sambhajinagar during morning session at 10:30 a.m.

World No Tobacco Day' is an event organized globally to raise awareness about the dangers of tobacco consumption, promote tobacco control measures, educate people about the harmful effects of it on our health, encourage smokers to quit and protect non-smokers from second hand smoke.

Emphasizing on the theme for 2024, 'Protecting Children From Tobacco Industrial Interference', focusing on preventing the tobacco industry from targeting young people with harmful products and promoting policies that shield them from manipulative practices. And we made an attempt to contribute in this program by visiting Bhagwan Baba Balika Ashram which is a home for many young children. Also, the head of the Ashram invited to the children of Yogeshwari Balak Ashram to attend the program for more awareness in young public.

First we interact with the children and help them to understand various products of tobacco like cigarettes, Bidli, Goa, Gutka, mava etc. which are easily available and accessible to them in the market. We told them how in rural India it is a common well accepted practice to use Mishri which is product of tobacco and causing many ill effects.

After the healthy conversation with children, we helped them to understand how harmful the tobacco is in its various forms; how it affects the human body both mentally and physically.

We made them aware of how addiction deteriorates the health of person who consumes it, right from simple oral ulcers, slowness of wound healing, halitosis, periodontal infections, respiratory infections like asthma, cardiovascular diseases, infections like tuberculosis to cancerous lesions/ cancers.

We aware them to understand about this in all simplest possible ways. We also helped them to understand the effect of tobacco on girls specially on the female body such as irregular menstrual cycles, PCOD, PCOS.

Report

Department of Paediatric and Preventive Dentistry Organised a programme on the occasion of "World No Tobacco Day" for spreading awareness based on theme "Protect children from tobacco industry interference", on 31/05/2024 at Corporation Hospital, N8 CIDCO, Chhatrapati Sambhajanagar, at 11:00 AM. It was conducted by Dr. Kanchan Khandekar and Interns of Department of Public Health Dentistry. It was aimed at creating awareness about the ill effects of tobacco on children as well as on general population. A pledge ceremony was organised for the public and patients including parents and children for a "Tobacco Free Generation". The pledge was designed so that it is responsibility of every one to counter the interference of tobacco industry in the life of newer generation and with collective efforts we can reach our goal. The pledge was in Marathi language so that it could be understood by general local population.

शपथ

तंबाखू, खरी, (जर्दा) धुम्रपान हयांच्या

दुष्परिणामाची मला जाणीव आहे.

म्हणून मी जन्मभर, हया व्यसनापासून

दूर राहण्याचा संकल्प करित आहे.

माझे घर आणि माझा आजुबाजुचा

परीसर तंबाखूमुक्त राहावा, इतरांनी

तंबाखूजन्य पदार्थांचा परित्याग करावा

हयासाठी मी प्रयत्न करीन.

माझे घर, माझे गाव (शहर)

महाराष्ट्र आणि भारत तंबाखूमुक्त बनवेल.
